1. Homepage

NUO TECH

Smart Technology. Automated Solutions. Sustainable Future.

We design, develop, manufacture, install and service **custom automation, industrial machines, renewable energy systems, IoT solutions and smart technology products** for businesses, industries, agriculture and everyday life.

2. About NUO TECH

Engineering Ideas into Real-World Solutions

NUO TECH is a technology and engineering solutions company focused on developing **innovative, practical and customized products** for modern businesses, industries, agriculture and homes.

We combine **electronics, automation, IoT, mechanical engineering, software and renewable energy** to transform ideas and challenges into reliable working solutions.

From a concept or prototype to a complete commercial product, NUO TECH provides end-to-end support including **design, development, manufacturing, installation, automation and service**.

Our Focus

- Industrial Automation
- Custom Machine Design & Manufacturing
- Renewable Energy Solutions
- IoT & Smart Automation
- Agriculture Technology
- Custom Electronics & PCB Design
- Electrical & Control Systems
- Smart Home & Office Automation

---

3. Our Solutions

Industrial Automation

Automate. Improve. Scale.

We develop customized automation solutions to improve productivity, reduce manual effort and increase operational efficiency.

Services include:

- Machine automation
- Process automation
- Control panel development
- Motor & valve automation
- Sensor-based automation
- PLC/Controller-based systems
- IoT-enabled machines
- Custom industrial equipment

Custom Machinery & Product Development

Your Idea. Our Engineering. A Working Product.

We design and manufacture customized machines and equipment according to specific customer requirements.

Our capabilities include:

- Concept development
- Mechanical design
- Electronics integration
- Automation
- Prototype development
- Machine fabrication
- Control systems
- Testing & commissioning
- Product improvement

Example Products:

- Milk ATM / Milk Vending Machines
- Paper & Decorative Product Machines
- Spraying Machines
- Custom Production Machines
- Valve Automation Systems
- Agriculture Automation Equipment

---

4. Renewable Energy

Solar Energy Solutions

Powering a Smarter & Sustainable Future

NUO TECH provides solar energy solutions for homes, businesses, agriculture and industries.

Services:

- Residential Solar Systems
- Commercial Solar Systems
- Industrial Solar Systems
- Solar Water Pumping
- Solar Power Plant Solutions
- Solar System Design
- Installation & Commissioning
- Maintenance & Service
- Energy monitoring

Our Future Vision

NUO TECH is working towards developing and investing in larger-scale renewable energy projects, including a future **1 MW solar power plant**, contributing to cleaner and more sustainable energy generation.

---

5. Smart Agriculture

Smart Agriculture Solutions

Technology for Better Farming

We develop technology-driven agricultural solutions to help farmers improve productivity, water management and resource utilization.

Solutions include:

- Smart irrigation systems
- Automatic water pump control
- Soil moisture monitoring
- Water flow monitoring
- Tank level automation
- Agricultural valve automation
- Weather & environmental monitoring
- IoT agriculture monitoring
- Solar-powered agriculture systems
- Smart water management

Our Goal

To bring affordable and practical automation technology to agriculture and help farmers make better decisions using real-time data.

---

6. IoT & Smart Automation

IoT Solutions

Connect. Monitor. Control.

We develop IoT-based solutions that allow users to monitor and control equipment remotely through mobile and web interfaces.

Applications:

- Smart homes
- Smart offices
- Industrial monitoring
- Agriculture
- Water management
- Energy monitoring
- Machine monitoring
- Remote equipment control

Technologies can include:

- ESP32
- ESP8266
- Wi-Fi
- IoT dashboards
- Cloud connectivity
- Sensors
- Mobile/Web interfaces
- Automation controllers

---

7. Electronics & PCB

Custom Electronics & PCB Design

From Circuit to Product

NUO TECH provides customized electronics development for prototypes and commercial products.

Services:

- Circuit design
- PCB design
- PCB manufacturing
- PCB assembly
- Embedded systems
- Sensor integration
- Controller development
- Product electronics
- Prototype development
- Testing & troubleshooting

Custom Product Development

Have an electronics product idea?

We can help transform your concept into a working prototype and production-ready product.

---

8. Smart Home & Office

Smart Home & Office Automation

Make Your Space Smarter

We provide automation solutions for homes, offices, shops and commercial buildings.

Solutions include:

- Smart lighting
- Fan automation
- Smart plugs
- Appliance control
- Energy monitoring
- IoT-based control
- Security integration
- Remote mobile control
- Voice-control integration

---

9. Electrical & Automation Services

⚡ Electrical & Control Solutions

We provide electrical and automation solutions for residential, commercial and industrial applications.

Services:

- Electrical automation
- Control panels
- Motor control
- Pump automation
- Valve automation
- Sensor integration
- Electrical troubleshooting
- Installation & commissioning
- Maintenance & service

---

10. CCTV & Security

Security & Surveillance

Smart Security for Every Space

We provide CCTV and security solutions for homes, offices, shops, industries and commercial properties.

Services:

- CCTV installation
- Camera configuration
- Network setup
- Remote monitoring
- Maintenance & service
- Security system integration

---

11. Gate Automation

Gate Automation Solutions

Make your entrance safer and more convenient with automated gate systems.

Solutions:

- Sliding gate automation
- Swing gate automation
- Remote-controlled gates
- Sensor-based automation
- Access control integration
- CCTV integration
- Automatic safety systems

---

12. Drone Services & Training

Drone Services & Pilot Training

NUO TECH also provides drone-related services and training.

Drone Services

- Drone operation support
- Aerial inspection
- Agriculture applications
- Industrial applications

Drone Pilot Training

Training support available in:

Karur • Namakkal • Udumalaipettai • Coimbatore

---

13. Our Product Development Process

From Idea to Reality

01 — Understand

We understand your requirement, problem and expected outcome.

02 — Design

Our team develops the mechanical, electrical, electronic and software architecture.

03 — Prototype

We build and test a working prototype.

04 — Automate

We integrate sensors, controllers, motors, IoT and other required technologies.

05 — Manufacture

The approved product is manufactured according to the required specifications.

06 — Install & Commission

We install, configure and test the system at the customer location.

07 — Support

We provide service, maintenance and technical support.

---

14. Why Choose NUO TECH?

One Technology Partner. Multiple Solutions.

✔ Customized engineering solutions
✔ Practical & cost-effective designs
✔ End-to-end product development
✔ Automation & IoT integration

✔ Renewable energy expertise
✔ Prototype-to-production support
✔ Installation & commissioning
✔ Service & technical support
✔ Solutions for homes, agriculture, businesses & industries

---

15. Industries We Serve

Residential

Smart home, solar, security and automation.

Industrial

Machine automation, control systems and custom machinery.

Agriculture

Smart irrigation, water management and agricultural automation.

Commercial

Energy, security, automation and smart building solutions.

Renewable Energy

Solar power generation and energy solutions.

Water Management

DC Pump, tank over flow, valve and water monitoring automation.

Custom Automation Machines

Designed according to customer requirements for specific industrial and commercial applications.

Smart Irrigation System

Automated irrigation using sensors, controllers, pumps and water management technology.

---

16. Vision

Our Vision

To build a smarter and more sustainable future by making advanced technology, automation and renewable energy practical and accessible to everyone.

---

17. Mission

Our Mission

To design and deliver innovative, reliable and affordable technology solutions that solve real-world problems, improve efficiency and promote sustainable development.

---

18. Objective

Our Objective

To transform ideas and real-world challenges into innovative automated products and sustainable technology solutions.

---

19. Future Vision

Building the Future with Technology

NUO TECH aims to expand its capabilities across:

- Renewable energy
- Industrial automation
- Smart agriculture
- IoT
- Robotics
- Custom machinery
- Electronics & embedded systems
- Smart infrastructure
- Sustainable technology

Our Long-Term Goal

To develop NUO TECH into a technology-driven organization creating **smart products, automated systems and sustainable energy solutions** for India and global markets.

---

20. Call to Action

Have an Idea? Let's Build It.

Whether you need a **custom machine, automation system, PCB, IoT solution, solar system or smart agriculture solution**, NUO TECH can help turn your idea into a working product.

Tell us what you want to build.

Get in Touch →

Homepage tagline

NUO TECH — Innovate. Automate. Sustain.

And a strong supporting line:

From Ideas to Intelligent Solutions — We Design, Build & Automate.

This positioning allows NUO TECH to present itself not just as a **solar or automation company**, but as a broader **technology, engineering and product-development company**.
